

PERFORMS BEST UNDER PRESSURE

Boss HPHT

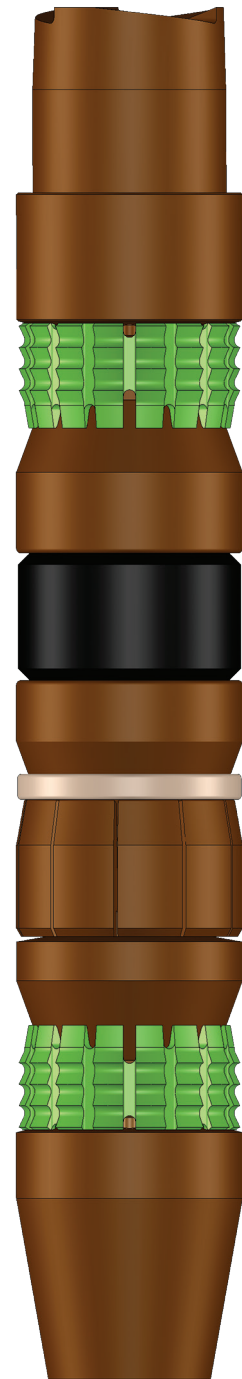

When it comes to top-end pressure and temperature performance, no presets, and cost-effective completions, Boss HPHT (high pressure and high temperature) is the best solution for all plug-and-perf completions. Formed from our proprietary composite material, which produces finer fillings during drillout, Boss HPHT plugs provide the reliable zonal isolation operators need for perforate and fracture cased-hole wells during multistage stimulation.

FEATURES

- + Rated for pressure up to 15K PSI and temperatures up to 350°F
- + Average 12.5-minute drillout time in field applications under extreme conditions
- + Short length
- + Proprietary resin-based composite material
- + Minimal metal content, casing damage
- + Maximizes effectiveness of frac stimulation
- + Rigorous QC testing
- + No presets

CASING SIZES

- + 4.250" OD: 5.5" 23#
- + 4.125" OD: 5.5" 26#
- + 3.500" OD: 4.5" 15.1#
- + 3.375" OD: 4.5" 18.8#
