

NOT YOUR ORDINARY COMPOSITE

Boss Rezonite AC

The latest addition to our frac plug roster, Boss Rezonite AC (all-composite) uses our patented design and proprietary composite material to eliminate presets, slipping, and leaking—saving operators thousands on total cost of operations. Boss Rezonite AC is made from a filament-wound composite, which is tested in-house under rigorous controlled temperature and humidity conditions. And unlike other plug materials, Rezonite AC produces fewer, finer cuttings for a cleaner drillout.

FEATURES

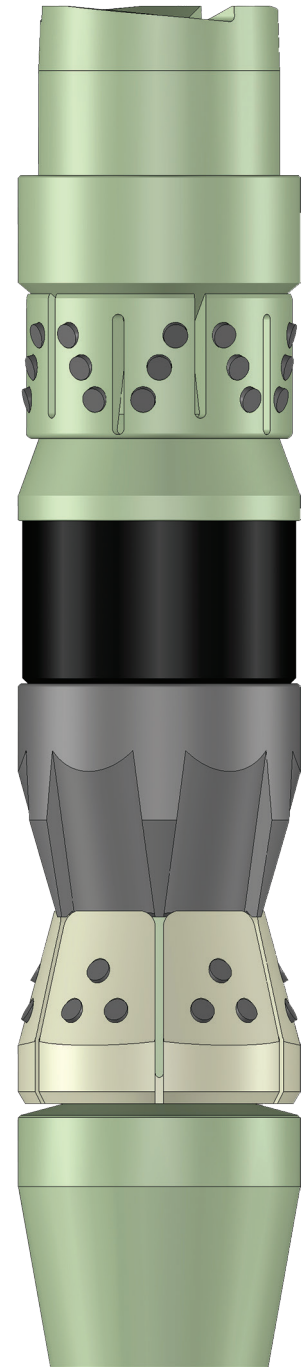

- + Simple, modular design that prevents presets
- + Slip breaking strength higher than wireline weak point
- + Patented lower slip design with recessed buttons
- + Superior zonal isolation for well conditions up to 250°F and rated to 10K+ KSI
- + Fast drillout
- + Rigorous testing to full API casing pressure

AVAILABILITY

- + Ball Drop
- + Ball-in-Place

CASING SIZES

- + 4.375" OD: 5.50" 17#, 20#, and 23#
- + 4.250" OD: 5.50" 20#, 23#, and 26#
- + 3.875" OD: 5.00" 18#
- + 3.650" OD: 4.50" 11.6# and 13.5#
- + 3.500" OD: 4.50" 13.5#, 15.1#, and 16.6#
