

Boss Hog All Composite with HELISEAL

Boss Hog has been the industry benchmark for composite plug performance for over a decade. The Boss Hog All Composite continues this legacy with dual composite slip construction. Using 100% WellBoss composite technology, the proprietary slip system provides the anchoring performance our customers expect from the Boss Hog with improved mill times and cutting size. Our proprietary HELISEAL ensures the most efficient pump down operation by reducing times by up to 60% and water usage by 40%.

BENEFITS

- + Reliable design history
- + Minimal bit wear
- + Fast drill out
- + Rigorous testing to full API casing pressure

CONFIGURATIONS

- + Ball Drop
- + Ball-in-Place

HELISEAL® FLUID PROPULSION SYSTEM

- + Average 40% less water for pump down
- + High pulling force to tow guns up steep inclines
- + No speed restrictions, even in long laterals

Casing Size, in.	Casing Weight, lb/ft	Plug OD, in	Pressure Rating, PSI
4.5	13.5, 15.1	3.5	10,000
	11.6	3.65	10,000
5	18	3.875	10,000
	21.4	3.75	10,000
5.5	17, 20	4.375	10,000
	20, 23	4.25	10,000
	26	4.125	10,000
6	22.3, 24.5, 25.5	4.75	10,000
	25.5, 26	4.625	10,000
